Vol. I.

No. 119.

COUNCIL CONSIDERING INTER-URBAN AGREEMENT

Goes on Approving the Proposition While the Ten Thousand Dollar Expert Employed to Advise on Such Matters is Still Out of the City.

For over three hours last night the council struggled and fought over the proposed agreement with the Interurban Railway Company, and at last managed to pass on seven of the twenty clauses that comprise the agreement. The writer that aroused the bitterest fight of the evening was the clause that gives the company the right to make a big loop-over in the city's lines in order to get it turned around on the outward route. Ald. Armstrong put up the biggest fight over this clause, although when it came to a vote, Aldermen Lundy and Miller voted with him against the clause.

Here is the clause that caused all the trouble:

"The company shall make connections with the lines of the corporation from the north at the corner of First street and Brandon avenue and the running privileges in respect of that entrance shall extend from the point of connection over and upon First street, to its intersection with Jasper avenue, thence over and upon Jasper avenue to its intersection with Syndicate avenue, thence over and upon Syndicate avenue to its intersection with Norwood Boulevard and thence over and upon Norwood Boulevard to its intersection with First street."

That is to say, instead of having a one block loop, the company is given a loop that comprises First street, Jasper avenue, Syndicate avenue and Norwood Boulevard.

Wanted Expert Evidence

"I think that it would be a very good thing to let this matter stand over until Mr. Bouillon is here to advise us," suggested Alderman Armstrong.

The Mayor pointed out however that Mr. Bouillon had already looked over the agreement and had given his opinion on various points. "I had a letter from him today," said his worship, "and he expects to be in Edmonton on the tenth of this month."

"Well," asked Ald. Armstrong, "did Mr. Bouillon say anything in regard to allowing the company to use nearly all the lines of the city? What did he have to say in regard to having one terminal?"

"He didn't say anything about that," said the Mayor, "but did not object to the company using so many of the city's lines."

Why Not One Terminal?

"Is there any objection to the company having one terminal and having them run their cars by the most direct route to that terminal?" Ald. Lundy wanted to know. "It won't make a particle of difference to the company, as they cannot do any city trade, and it will help out our own lines quite

WINNIPEG PAINTERS ALL GO ON STRIKE

They Demand Forty Cents an Hour
While Employers Only Offer
Thirty-Five.

Winnipeg, May 4.—At 9 o'clock this morning every union painter in Winnipeg, of whom there are 3,000, put down his brush and went on strike. The men are demanding forty cents an hour. They are receiving no cents at present. The masters have offered them 35. The men decided to strike at a mass meeting held last night. Some of the men claimed that a number of firms who had refused to grant the terms of the union would give way this morning. They state that the demand for painters is at present so great that it exceeds the supply and the masters will be compelled to make concessions. The T. Eaton, Hudsons Bay Co. and ten other firms have agreed to pay forty cents an hour.

TOO POOR TO BURY CHILD

New York Woman Carried Baby in Her Arms to the Morgue

New York, May 4.—Mrs. Anna Graves, unable to hire a conveyance, walked with her month old baby boy in her arms from her home, No. 440 Seventh avenue, to Bellevue Hospital yesterday afternoon, just when she uncovered the child for inspection Dr. Leroy Smith found the infant dead. The mother was overcome with grief. She said that the baby had been treated on several occasions yesterday in her doctor's office. She could not tell the exact character of the infant's illness, but said he had been unable to take much nourishment or retain the milk she prepared. She said her husband, Thomas Graves, was a laborer, and had been out of work for some time. They were too poor to bury the infant, she said, and at the suggestion of the Bellevue surgeons, she carried the little body to the Morgue.

Prompt delivery is one of the things we pride ourselves on. Phone 1550 Edmonson Drug Co.

MARK TWAIN'S WILL

Whole Estate is Left to his Only Daughter.

Balding, Conn., May 4.—The will of Samuel Clemens (Mark Twain) was filed for probate here today. It leaves the entire estate to his only surviving daughter, Clara Langford Clemens, wife of Osip Gabritowich. The amount of the estate is not given.

MAY COMPEL ATTENDANCE

Mr. Justice MacDonald Upholds Commission's Powers.

THE APPLICATION WAS DISMISSED

It was That the Court Should Set Aside Former Order Directing Attendance.

Winnipeg, May 4.—Mr. Justice MacDonald delivered judgment on the application made to him to set aside an order which had been made for examination of certain witnesses before the three Supreme Court Judges of Alberta. He dismissed the application with costs. He held that the commission was constituted by the legislature and created a judicial tribunal which under provisions of the statute creating it, has power to compel the attendance of witnesses. As to the objection that the commissioners have no power to take evidence outside Alberta, he stated he could not see the force of the objection. They could have requested an order for the attendance of witnesses before an examiner and the court would have had the power to make appointments. Instead of which the request this court to summon the witnesses to attend before themselves at Winnipeg and there seemed no valid objection to this proceeding.

APPEALED TO KING EDWARD

Article in Contemporary Review was Declared Offensive.

WITHDRAWN FROM CIRCULATION

Writer Called on the King to Settle Differences Between the Lords and Commons.

London, May 4.—A sensation has been caused today by the news that the May number of the Contemporary Review, which was issued last Saturday, has been withdrawn from circulation and that a revised edition will be put into circulation in the course of a few days. The Evening News states that this is due to outspoken criticism of the bad taste and disloyalty of certain references to the King in an article which had a place of honour in the Review. Several paragraphs in the original article were really offensive, especially the one which declared that the King was quite unable to understand why a small herd had led to withdrawal of the Review. The article was entitled "The Opportunity of the King." It opened with a fierce denunciation of the skin on "Hamlet" played by the "Follies" at the Apollo Theatre and concluded with an appeal to the King, a good sportsman, to arrange a settlement of the controversy between the Lords and Commons on a basis of an arrangement that would give the Liberals a sporting chance to have a majority in the upper chamber whenever a general election shows unmistakably that the Liberals are in the majority in the nation.

German Aviator's Record

Strassburg, Germany, May 4.—German Aviator Wieneziers, last night made a brilliant flight in his Antoinette aeroplane. He started four miles from the city, passed over the houses in Strassburg, twice encircling the steeples of the cathedral of Strassburg, 462 feet in height. He successfully won the prizes offered by Count Von Wedel, governor general of Alsace-Lorraine and Baron von Balach, secretary of state.

BIG SAVING BEING MADE

Reports on Civic Utilities Show Reduction in Cost.

THE HOSPITAL BY-LAW IS FAVORED

Council Unanimously Agrees to Present a By-law to the People to Raise \$175,000.

That the Francis investigation has been of inestimable benefit to the city, and that the cost of the report will be repaid many times over, no one who heard Commissioner Butchart's report on the various utilities for the past five months, read at the council meeting last night, can deny. The telephone, electric light and water works departments all show virtual surpluses for these first five months of the financial year, and the street railway department has only a deficit of a little over \$2500, which is not at all bad, considering that the report covers the winter months, when traffic is not as heavy as in the summer, and the operating expenses are heavier.

The power house report, which must not be confused with that of the electric light department, shows a very pronounced decrease in the cost of production. In fact, owing no doubt to thorough investigation conducted by Mr. Francis, some of the reductions in the cost of operation are startling. Everything in the way of unnecessary expense at the power house has been cut down, and yet today there is an increase of fully fifty per cent. in the amount of power produced.

FIGURES FOR EACH MONTH

The report, which covers the months of November, December, January and February, gives the following figures:

In November, \$3,600.55 was paid out in wages to employees, at the power plant. In February this had been reduced to \$2,377.27, a decrease of over one third.

In November the money paid out for material amounted to \$866.77. By February this had been reduced to \$274.88, a saving of nearly 75 per cent.

The fuel bill last November was \$2,333, while last February it had been brought down to \$1,629, which shows economy, as the hours of daylight in those two months are about equal.

A tremendous saving has also been effected in the use of oil waste and boiler powder. Last November the money spent for this purpose was \$1,079. By February this had been reduced by nearly half—\$523.58.

Expenses in the office have been cut down from \$6 to \$18, and in that all devolving item, "Sundries," the saving has been most marked, from \$76 in November to \$24 in February, a decrease of over six sevenths, or 85 per cent.

All this saving in the cost of operation has meant a decrease in the cost of electrical energy supplied to the various departments. In November the cost per kilowatt hour was 3.5 cents. In December it had dropped to 3.3, in January to 3.1, and last February it had been further reduced to 2.8 cents. And at the same time it must be remembered that the amount of electrical energy produced has been steadily increasing.

Electric Light Department

The electric light department reports for the past five months shows the handsome surplus of \$17,507.65. At this rate, the deficit of last year ought to be wiped out in a very short time.

The telephone department shows a revenue of \$12,255.53 from January 1st to March 31st, while the expenditure from November to March has been \$14,053.66.

The current expenses in the street railway department have been \$33,667, while the revenue has been \$31,054.

In the waterworks department the current revenue has reached the total of \$20,892.42, while the expenditure has only been \$17,111.79.

The council received the report.

Hospital By-Law Favored

The council agreed unanimously on presenting a by-law to the people to

KIRKPATRICK WILL STAY

Former Canadian to Remain at Head of Australian Forces.

Melbourne, May 4.—The Fisher cabinet, after an investigation finding that the appointment of Kirkpatrick, the former Canadian as inspector general of forces had been completed by the old government, has decided not to disturb the arrangements.

TO BE TRIED NEXT ASSIZE

Murder is the Charge Against W. O. King.

PRELIMINARY HEARING IS ENDED

A Number of Witnesses Were Called and Built a Strong Mass of Testimony.

At the conclusion of the preliminary hearing yesterday, William Oscar King was committed for trial at the next assizes, for the murder of a man named J. H. Hindland, near Minto on the 7th of March, 1907.

A great deal of evidence was forthcoming, which pointed to the fact that King and Hindland had driven off together in a sleigh, and only one man had returned. That man, according to the evidence, was King.

Sgt. Detective Nicholson gave evidence as to what he had found out from the accused while in the penitentiary at Fort Saskatchewan serving a sentence for horse-stealing. In September, 1908, he said, King sent for him saying that he wished to make a statement about a man who was driving a Clover Bar. The man whose name he did not know had been killed by another named Gars Borden. August, King had told King this and also where the body was. He went to Clover Bar bridge, said taking King with him, and saw the body lying on the place. The shape of a body in some cases was like one seen quite distinctly and it was taken out and sent to Fort Saskatchewan to be examined.

King stated that Timon had told him that Borden had killed a foreigner for his money, in one of the mines, and had carried him there to bury him.

Mrs. Pauline Parhus, of Wilson street, was called to tell what she knew of the affair. She said that in March, 1907, she was keeping a boarding house near the Fraser mine, Clover Bar. Hindland and King were both staying with her, the former having a team of big black horses, a sleigh and a wagon, with him. King told her one day that he was going to kill Hindland and she afterwards discovered that he had kept a shot gun in the stable, which she supposed was for that purpose.

When she asked King for his reason for making this statement, King said that he had lent Borden \$800 when he was in trouble, to pay his lawyer's fees, and now that he was in trouble himself, Borden had gone off without him.

On March 9th, 1907, King and Hindland drove away together with the team. Hindland says that he wanted to go to his homestead near Ponoka, and King saying that he wanted to get out in that district.

At 12 p.m. three days later King came back alone, saying that he had left Hindland frozen to death. He then went to bed, but got up again at 4 a.m. and lit a fire near the stable, in which he hung a bag of clothes and some blankets; which Mrs. Parhus says she recognized as belonging to Hindland.

Mrs. Parhus then moved into Edmonton, shortly after which King made a trip to Minnesota, where he mortgaged Hindland's farm. He was away a month and when he came back he sold Hindland's team and harness for \$109. Mrs. Parhus said that she had originally come from Cape Breton with King about five years ago. She also identified a watch which Sergeant Nicholson produced, as belonging to Hindland.

The current expenses in the street railway department have been \$33,667, while the revenue has been \$31,054.

In the waterworks department the current revenue has reached the total of \$20,892.42, while the expenditure has only been \$17,111.79.

The council received the report.

Hospital By-Law Favored

WILL PROCEED AGAINST WHITELEY FOR CONTEMPT

Manager of the Royal Bank Refused to Appear Before the Alberta Royal Commission—Commissioners Leave Winnipeg To-Night for St. Paul and Toronto.

(Special to the Capital)
Winnipeg, May 4.—The commission this morning authorized J. Pitblado to take action against the T. R. Whiteley, manager of the Royal Bank, for contempt of court. Whiteley was called this morning and refused to attend. Instead he wrote the following letter which was read:

"I have been advised by counsel that subpoena served upon me is issued without any jurisdiction and I am, therefore, unable to give evidence respecting business of bank's customers."

"He is assuming to know what he is required to be examined about," remarked Judge Beck.

The commission wound up today its work and will leave tonight for Toronto via St. Paul. An attempt also will be made to secure evidence from R. Newport at St. Paul who Faulkner said helped Clarke to secure a large sum of old currency to take to Canada.

(Special to the Capital)
E. A. James continued his evidence and gave some further particulars of the kind of road it was proposed to build. It was to be a high-class road. As to the use of the 50-pound rails, he said they were used on some parts of the Calgary to Edmonton line as late as last year. The Alberta and Great Waterways Railway would pay for the day it was built and the government of Alberta would never have to meet any interest on the bonds.

(Special to the Capital)
H. P. McMahon Called.
H. P. McMahon, superintendent of western branches of the Traders Bank, said it had been suggested to him by Minty that he should become a director of the railway. McMahon replied that he was willing provided he could be the real thing. Minty said this might not be agreeable to some of his associates. The matter dropped at that. Later the witness approached Minty and remarked "There ought to be something fat found in the construction of the road. Who is going to get it?" Minty had said Clarke had approached Mr. Holt of the Royal Bank, but Mr. Holt had the reputation of wanting the lion's share in such things and no arrangement was made. He had heard of Clarke four or five years ago when he was mixed up with a bunch of southern promoters. He understood his father had money.

"How about W. R. Clarke?"
"From what I could make out he had little real money. He had lots of hot air."

Mr. McMahon told Minty that the Bank was willing to pay at least par, and if certain arrangements could be made, so that the bonds would run twenty years, the Bank would pay

13,750 FOR A LEG

Boy Receives Largest Damages on Record for Such an Injury.

New York, May 4.—Thirteen thousand and seven hundred and fifty dollars for the loss of a leg was awarded to Harold Shafter, fifteen years old, son of a policeman, by the Appellate Division of the Supreme Court, today, affirming a decision of a lower court. It is the largest verdict ever upheld here for such an injury.

THE WEATHER

Forecast—Manitoba and Saskatchewan: Southeast winds and warm; Alberta: some local showers, but mostly fair and warm.

The weather throughout the prairie provinces has been mostly fair and little warmer.

Plug, Please
At the Hotel Brewster, in Freeport, if one asks the waitress for sugar, she inquires, "Plug or fine cut?"—Chicago Tribune.

Extremely Dry Weather has Caused Destruction of Fifty Per Cent. of Winter Wheat.

The Calgary News says: "Fifty per cent. of the winter wheat has been destroyed in the southern part of Alberta as the result of the extreme dry weather this spring," said Secretary McHugh of the Calgary Grain Exchange today.

"The rain that we had towards the latter part of last week was not sufficient to revive the germination of the seeds which were dying for lack of moisture."

"The majority of the farmers who sowed fall wheat are now engaged in plowing it up and making preparations for the seeding of spring wheat in its stead."

"Unless this country has more rain in the course of the next few days it will practically mean the total destruction of the fall wheat as the latter has reached the stage when it is in dire need of moisture."

WEDNESDAY, MAY 4, 1916.

The information that the commissioners "have received as to the extent to which the municipalities and their hospitals should warrant the council in submitting a bylaw, granting the aid requested by the hospital board, at an early date. There is no respect in which the civic expenditure of a generous character would be better justified. It is as imperative to provide the proper facilities for the care of the sick out of municipal funds as it is to maintain a fire or police department."

It would be well for the Edmonton council to secure a report from Mr. Potter in reference to the water system. Without any disrespect to Mr. Galt; who made the previous investigation, it may be said that Mr. Potter is the bigger man in the field. The question is one of such overwhelming importance to the city that we cannot go too carefully and before a general line of policy is adopted we should be absolutely certain of the wisdom of what we are doing.

An Edmonton lady ordered seeds for her garden from a Toronto firm. They were delivered on May 1st and this was the tenor of her letter acknowledging receipt: "If you would push your business as far as the country, you had better learn Alberta something about it. Alberta isn't Ontario, let them tell you. Why here all my neighbors have had their gardens in for weeks and there is a fine showing of green by this time. I don't like the reputation of trailing along way in the rear of the others, so you will kindly be a little more prompt in filling my order in the future."

The insurgents have chosen Mr. Cushing as their leader and the Edmonton Conservatives want Mr. McCarty to take over the command of that party in provincial politics. Under these circumstances, Mr. Bennett, who no one will deny for a minute, whatever they may think of his tactics, has been the whole life of the attack on the government, is liable to recall the well-known Shakespearean line about the sharpness of a serpent's tooth not being in it with an ungrateful child.

The Calgary Albertan devotes a column of its valuable space to a discussion of the A. & G. W. situation and concludes:

"What explanation have the government papers to make? Will any government supporter have the nerve to start all over again, from the very beginning, and defend the A. & G. W. railway deal?"

It wouldn't require any nerve, but it would be waste of time so far as the Albertan is concerned. The article of which these are the concluding sentences constitutes a very severe indictment, provided that the statements which are made there can be verified. But in a score of years, the Albertan has absolutely at variance with the facts. It has been pointed out, over and over again, on this page, in what respects they were, but the Albertan continues to repeat them. We might challenge them once more. But this would have no effect. They would only be rebuked the next day. So what's the use?

The attention of the Bulletin, which is criticizing Mr. Minty very severely for refusing to give certain information which he received in the capacity of a solicitor, is called to a dispatch from Ottawa. An investigation is going on at Ottawa before the public accounts committee. A charge has been made that in connection with some buildings which the government rents, the lighting bills have been paid by the landlords, the latter last year charged the government \$9,450 under this head, whereas they paid the lighting company less than \$3,000 for this service. The landlord's manager, Mr. Linton, came before the committee, and on being asked to produce the contract with the lighting company, refused to do so. In doing so, he was upheld by Hon. Mr. Pugsley,

who was representing the government before the committee. We look for the Bulletin to turn its guns immediately on Mr. Pugsley and his colleagues. It will be remembered that in connection with the A. & G. W. investigation, the contract between Mr. Clarke and Mr. Morgan, relative to the sale of the bonds, on which the whole charge, or rather instigation of graft depended, was produced for the inspection of the commission. Why should a transaction, the facts of which the public is so acquainted with, everything being known, have been as represented by those who carried it through, be subject to condemnation and nothing be said about such a proceeding as that at Ottawa?

The Bulletin yesterday over its report of the commission proceedings at Winnipeg placed a large headline "\$44,000 placed in divided among political parties." This might easily mislead some readers. There is a large class whose newspaper reading is confined to the headlines. Two facts should therefore be pointed out. One is that this stock was not in the A. & G. W. but in the Athabasca syndicate, whose proposition the government turned down, and the other is that the negotiations which were in progress when the distribution of this amount was mentioned, had to do with an effort to secure aid from the Dominion, not the provincial government, the latter having told the promoters that while it would support an application to the authorities at Ottawa, it did not wish to set a precedent which might relieve the Dominion government of its responsibility in the matter of aid to railroads.

It was only after the Dominion government had shown no desire to give the necessary aid towards the construction of the line that the people of Alberta were in dire need of, that the provincial government elaborated a policy of its own.

IN SUNNY ALBERTA

David Oshorne and George A. Dixon and their wives arrived in Tofield last week end, coming direct from Rainy River, Ontario, where they have been living for some years past. They intend to make Tofield their home as they think Tofield looks good to them. Mr. Oshorne is a bricklayer by trade and will be a welcome addition to the trades circle.—Tofield Standard.

One of the finest drivers that was ever brought to the west was imported to Wetaskiwin last week by A. T. Boardman, from Toronto, Ont. This horse is a pure bred Hackney mare, named "My Queen."—Wetaskiwin Times.

Among the real estate deals of the past week are two sales made by E. X. Nunneley. He sold to acres for \$1,125 an acre, one mile north of the city for \$20 an acre, and he also disposed of S. Stromson's quarter at Yulewood to an Iowa man for about \$1,800.—Wetaskiwin Times.

NEW GOVERNMENT HAS HIGH AIMS

Premier Luzzati of Italy lays the Cabinets Programme Before the Parliament

ROME, May 4.—Premier Luzzati has laid before parliament the cabinet's programme. Summarized, he said, the aims of the government were for justice, liberty and culture.

The ecclesiastical policy was one which would provide for freedom in religious matters, leaving intact the autonomy of the state. An electoral reform was proposed which would give the right to vote to all citizens of age on condition that they were able to read and write.

The premier announced that there will be a revision of the fiscal system and democratic reforms that would benefit the working classes.

A reformation of the senate has been determined upon, he said, the initial step being a change that would permit the senate to elect its own president and board of presidency, which now is chosen by the king.

Balloon in Close Quarters

PARIS, May 3.—The balloon Baldeur, which is owned by the Aero Club of France, made a sensational descent in the courtyard of a house on the Rue des Grandes Augustines. The balloon left St. Cloud in the morning. The aeronaut Dubois acted as pilot and he had three friends with him. They had a narrow escape when the big bag landed, as it bumped right and left against the roofs of houses. An immense crowd collected about the place where the balloon came down and it required a special detail of police to clear the street.

HIGH FLYERS IN MONTREAL

Plans are Being Made for Great Aviation Meet.

WILL BE FIRST IN THE DOMINION

It is hoped that World's Greatest Aviators will be there next June or July.

Montreal, May 4.—At last all obstacles seem to have been overcome and Montrealers will in June or July, have an opportunity of seeing the crack flyers of both Europe and America in action. For some time past the members of the Automobile and Aero Club of Canada, have been seriously considering the possibilities of holding in Montreal a great aviation meet, which would bring to this city aviators of world-wide repute and eclipse in size and practical demonstration any of the big meets heretofore held in other countries.

This enterprise will be undertaken with a view of giving the people of Montreal an opportunity of viewing for themselves the practical progress that has been made in the greatest of all sciences namely aerial navigation.

Scandalized the Passengers

TORONTO, May 4.—A very pretty young lady was seated in the corner of a car, at the other end of which was standing a middle-aged man, apparently respectable. The man met the girl's glance in a moment and threw her a kiss. She smiled and then blushed furiously. He threw another, and she crimsoned and turned away. "That will about do for you," said the conductor, "Go home to your wife!" This did not seem to worry the man, and again he threw another kiss. When the girl rose to leave the car the man who was trying to lift her with her moved toward the door. At this time all eyes were on the man and the conductor and a couple of the passengers seemed on the point of interfering. But the girl took the arm of the apparently respectable man, and said in a silvery voice that all could hear, "Oh, dad, how could you?"

This will be the first aviation meet held in Canada and the promoters are prepared to make it a credit to Canadian enterprise.

There are many inventors in the city of Montreal who will welcome the event, as it will serve to bring to prominence the results of their investigations, and nobody knows but that it may be the means of bringing to the light of day a solution of the vexed problem of automatic control, which will render aerial navigation as safe a method of passenger transportation as any yet conceived by the mind of man.

In Germany and France, in fact in all the European countries, support is given in various ways to the native investigators, and this has proved a wonderful advantage to the progress of the science.

Prizes will be offered to the local builders who show machines possessing new features, and in this way the encouragement which so conspicuously led by the early investigator will be given.

The determination of the promoters of the meet to do this renders the enterprise unique in this respect.

It is of interest to state that there are several well-known gentlemen in the city who have spent many dollars studying the problem and building model craft. In fact one gentleman whose name is withheld for the present, has been following the study of aviation for the past twelve years, and is anxious to show his machine at the meet.

The position which the science of aviation has attained in Canada is evidenced by the fact that McGill University has been giving a course during the term just closing, and it is proposed to make the course very much more comprehensive next year.

From a scientific and attractive standpoint it is proposed to make the meet the greatest sporting event in the history of aviation. To do this will cost many thousands of dollars, and the money will have to be raised largely by public subscription. It is proposed by the Aero Club that the meet should not only be a civic or provincial enterprise, but will be supported by the whole Dominion of Canada, and that in this way it is essential that the meet shall be of such a nature as will be a credit to the Dominion that could not otherwise be unless the proper support is given by the government and the local business men.

Fright Rates on Flour

WASHINGTON, May 4.—A case involving millions of dollars paid for freight shipments has been ordered by the Interstate Commerce Commission to be re-argued. Pending hearing of arguments, the commission suspended the effective date of its order supporting the Northwestern millers and ordering the Great Northern Railway and other lines to reduce the Minneapolis-New York rate on flour from 23 to 21½ cents a hundred pounds.

ONE MILLION FOR STATES

Immigration Into Republic Greater Than For Several Years

Washington, May 3.—According to present indications immigration to the United States for the fiscal year 1910 may be greater than for any year since if the record for the first nine months of the fiscal year is maintained. The arrivals for April were 1,362,45 and for the nine months of the fiscal year 669,948. It has been several years since the immigration figures reached the million mark.

Of the immigrants who were admitted during March 1,000,000 were German, 84,000 were Italian, 8,000 were French, 8,000 were British, 13,806 were of the south of France; 2,203 were Polish and 5,000 were Greeks.

During the first seven months of the fiscal year, that is from July last to January inclusive, 12,029 immigrants were deported. Of these 209 were kept out because of insanity or feeble mindedness, 1,655 because they had a loathsome disease, 7,688 because they were liable to become a public charge and 389 because it was charged they were contract laborers. The immigrants had probably 6,000 for good cause immigrated who have been in this country for some time and may be sent back. In that category, however, the largest number for the seven months returned to the country whence they came 422 persons because of insanity or other mental conditions.

Scandalized the Passengers

TORONTO, May 4.—A very pretty young lady was seated in the corner of a car, at the other end of which was standing a middle-aged man, apparently respectable. The man met the girl's glance in a moment and threw her a kiss. She smiled and then blushed furiously. He threw another, and she crimsoned and turned away. "That will about do for you," said the conductor, "Go home to your wife!" This did not seem to worry the man, and again he threw another kiss. When the girl rose to leave the car the man who was trying to lift her with her moved toward the door. At this time all eyes were on the man and the conductor and a couple of the passengers seemed on the point of interfering. But the girl took the arm of the apparently respectable man, and said in a silvery voice that all could hear, "Oh, dad, how could you?"

This will be the first aviation meet held in Canada and the promoters are prepared to make it a credit to Canadian enterprise.

There are many inventors in the city of Montreal who will welcome the event, as it will serve to bring to prominence the results of their investigations, and nobody knows but that it may be the means of bringing to the light of day a solution of the vexed problem of automatic control, which will render aerial navigation as safe a method of passenger transportation as any yet conceived by the mind of man.

Ballade of the Front View

I know an honest man and true,
A citizen whose greatest care
Is reputation; as his due,
He claims respect—his rightful share.

But though we count him fair and square,
His wife ne'er ranks him quite so high;

She says with no offended air: “

“He will not wipe the dishes dry.”

Now, he has done a thing or two,
His life is not entirely bare;

But she thinks that, though they're somewhat few,
Must make the men who view them start.

But when his neighbors all prepare
To praise his powers to the sky,

His wife remarks and shames him there:

“He will not wipe the dishes dry!”

He is the sort of person who
Can borrow all you have to spare,

And any man he ever knew,
To his integrity would swear;

But while to doubt him none would dare,
His better half must sadly sigh

And still most mournfully declare:
“He will not wipe the dishes dry!”

L'ENVOL

Friend, you may hear the trumpets blare
In praise of one, but by and by

The truth is sure to out—beware!
“He will not wipe the dishes dry!”

—Vancouver Province.

WILD PLANS TO WIN HER

Turned Bandit When his Sweetheart Refused him.

WANTED TO MAKE MORE MONEY

Now he is in Prison, Determined to Forget and be Good Hereafter.

Colister was a personal friend of the cashier of the bank he proposed to rob, and purchased steel tipped ammunition, claiming that he wished only to make the cashier helpless. The cashier fainted in court when the gun and ammunition were produced.

Colister, who is an automobile works mechanic, upon leaving to serve his sentence for conspiracy to rob a bank, blamed an unnamed sweetheart for his wild schemes to rob and murder.

"When sentence passed upon me, I planned more than I can tell," he said while on his way to the depot to take the train for Ionia. "I am glad of this sentence with pleasure. But there I will be away from Lansing and my former associates. It may seem surprising that I look on a two year's sentence with pleasure.

"But there I will be away from Lansing and my former associates. It may seem surprising that I look on a two year's sentence with pleasure. But there I will be away from Lansing and my former associates.

"Ottawa, May 4.—It is understood that the government next session will introduce a bill providing for superannuation on a more generous scale than provided for under the old scale introduced a few years ago, for both inside and outside branches of the Civil Service.

CALGARY TEAM TAKES THIRTEEN

FIGHT MUST GO 10 ROUNDS

Fans Suspicious, but Players say Number is Lucky—Are in Good Shape.

Calgary, May 4.—At one o'clock yesterday the Calgary professional team left for Medicine Hat to open the league series with Billy Hamilton's bunch today.

Manager Carney is taking the whole team, including Kehckay, Coopers, Dugan, Smith, Gouchee, Tallant, Clynes, Flanagan, Stanley, Standridge, Gechan and Manning.

This makes thirteen players in all. The Calgary manager is a superstitious man, so the big mif while Standerfield and the rest of the boys claim it is a lucky number.

All the players are in first class shape, and can be banked upon to play the real article. Day before yesterday they had a good workout at the park. Carney was drumming the signs into the team with considerable success. The boys are enthusiastic over their signals and ideo team work, and expect through these important factors to pull them through many a game.

Yesterday the bats arrived, some of which were made expressly for the players. A number of fans were at the depot to wish the boys a successful trip, and a crowd left at midnight to travel in the first game.

Zybsco Would Not Accept Decision

Chicago, May 4.—After a nail and 53 seconds of strenuous wrestling on Thursday night, between Zybsco and Jesse Westergard, of Iowa, the bout came to an abrupt ending through the severe wrenching of ligaments in Westergard's left leg. The bout was given to Zybsco, but he refused to accept the victory, saying he would meet Westergard again if the Iowan so desired.

SAYS FIGHT WILL END SUDDENLY

Pat Jennings, of Belleville, Contradicts Story that Fighters will Stall for 10 Rounds.

Toronto, May 3.—Pat Jennings, the Belleville man, who had influence enough to bring Jack Johnson from Chicago to Belleville for a one-night stand, claims to have the right done on the big battle. He was with Johnson a lot around Toronto and Belleville and the black talked confidentially to the Belleville Irishman.

"There have been a number of questions asked and I think I can answer some of them," said Jennings today. "A lot of people want to know if they are going to stall ten rounds for pictures. I say they certainly will not. I know this to be a positive fact."

Johnson gets a chance to pull Jeff away in round he will do so, people think. Jeffries will be there, too, and Jeff will do the same. Some people think Jeffries will not make advances, in my opinion he has, but after all is said and done, Jeffries will use his own judgment, and he should know best what he needs. Some people want to know if the fight will be on the level and if Johnson will get a square deal. The fight will be on the level, and Johnson, told me himself, that he will get a square deal, and if he loses it will be a case of Jeffries being a better man, not the result of crookedness. Johnson also told me that if Jeff should knock him out and he could rise to his feet he would be the first man to grasp the victor by the hand and congratulate him on his victory.

Can Jeff Come Back

"Can Jeffries come back as good as he was seven years ago? Well, I have had experience in athletics, and never in my time have I ever known an athlete to come to the front after five or six years' retirement. It has been tried dozens of times, and if Jeff comes back he is bound to be the first human being I know of that has ever done so. Billiard players have come back, but there is no comparison."

Jeffries was at his best, Johnson said, and give him the battle of his life, but I think he would beat Johnson. But as far as I can see now it's Johnson all the way, for I think with that terrible uppercut and his great stamina which he possesses will win for him."

TORONTO WANTS JUVENILE CHAMP.

Offers to Play Montreal for Juvenile Lacrosse Championship of Canada.

Montreal, May 4.—The Juvenile Lacrosse movement goes on apace and already Toronto has ambitions to collect the Juvenile championship of Canada.

That, at least, is the purport of a letter received by Chairman W. E. Findlay, of the Montreal Lacrosse Renaissance Committee, from W. Gladish, the secretary of the juvenile movement. Johnson also told me that if Jeff should knock him out and he could rise to his feet he would be the first man to grasp the victor by the hand and congratulate him on his victory.

No trophy has been offered for such a championship nor is there one at the present moment in sight. Mr. Findlay will bring the matter before the Renaissance Committee where it will receive due consideration.

New Kind of Pool

Chicago, May 4.—Several western cities are demonstrating on a new kind of pool table which was originally introduced in Australia. It has two pockets in each side, one in the centre of each end and none in the corners. Ordinary billiard balls are used and the game is really more like billiards than pool.

SPECIAL STORY OF BIG GAME BY STAFF CORRESPONDENT

F. H. McPherson, Sporting Editor of the Capital, in Lethbridge To-Day—Will Send Special Account of the Opening Game of the Season.

Today is the big day in the Western Canada Baseball League. It is opening day, and all the hopes and aspirations of every club and every fan in the league are at a high pitch. As is the first few games of the season are always of great interest.

In view of this fact the Capital has made special arrangements whereby the opening game in Lethbridge, where Edmonton is playing today, will be especially well covered for the local fans. It has not been able to take

Mr. F. H. McPherson, Sporting Editor of the Capital, has gone down to Lethbridge and he will give detailed accounts of the first three games of the season that Edmonton figures in. These accounts, besides giving the full history of every play made, will also include brief descriptions of how the various members of the Edmonton team are showing up under fire. They will be of especial interest as Mr. McPherson has watched the men day by day in their practice for the past three weeks, and is well acquainted with all of them.

Can't Keep it Secret

Whether there is any truth in this will probably not be known until the men get together on July 4, but it is certain to leak out then. There will be so many sporting authorities at the lightwatching every move made from start to finish that the slightest attempt at shading on the part of either man will be detected immediately.

However, the rumor has a strong foothold, and is spreading rapidly. In fact, it is almost the principal subject in all discussion on the right, and there are many who believe it has a touch of genuineness. Both the following stories were submitted to Johnson laugh at the idea that they have subscribed to such an agreement.

While they admit that the picture end of the game is an important factor, they all insist that both men have too much at stake to take any chances. Jeff Rush Fight

Many sporting men, even those who like Jeffries, think that his only hope of beating Johnson is by rushing the fight right from the start. Jeffries is too old a man—he was 35 years old recently—to fool away any time, and if he should, the negro would be sure to wear him down. Besides all this, Jeffries is proud, and those who enjoy his confidence declare that he would be the most disappointed man in the world should Johnson beat him.

The followers of Johnson's fortunes laugh at the idea that their idol has agreed to let the fight go any stated distance because of the pictures. He may let the fight go for 12 minutes, they say, but if he does it will only be for the purpose of getting Jeffries to use up all of his energy, so that he can beat him easier.

Nevertheless there will be few bets made that the fight will go no more than 10 rounds.

HANS WAGNER LOST HIS NERVE

Was Racing Home with a Party of Friends from Carnegie, Pa., when Another Auto went into Ravine.

Pittsburgh, May 4.—"I lost my nerve," I could not do a thing to help her," was Hans Wagner, Pittsburgh's shortstop, to-day. "I was driving a fast motor when I was damped over an embankment 125 feet high, while racing home with the ball players in an auto. Wagner, who is an auto enthusiast, was returning home to Carnegie yesterday afternoon. While running along the hills of the Ohio valley, five friends in another carriage started to race. The Wagner car pulled ahead and when about ten miles from the city Wagner heard yell for help. His friends and the machine were in a ravine 125 feet below. Help was summoned, and the men taken in Wagner's car to a hospital. James L. Orris was the most seriously injured and may die. The others were not fatally hurt. Two hours later, within a mile of the scene of the accident, Wagner was making sport of the commission by refusing to pay up for such a long time after that body reinstated him.

The fine paid by Kling is the largest paid in the history of baseball. A couple of years ago Hall Chase was fined \$200 for jumping the New York Americans. That was the largest previous fine. Chairman Hermann of the commission would make no comment other than Kling has paid his fine and was eligible to play with the Cubs.

Knockers are Busy

Baltimore, Md., May 4.—Another high record in singles was established in the rolling at the fourth annual tournament of the National Bowling Association today when Tony Piro of Brooklyn, scored 705 pins in the individual class.

ROLLS 705 at Baltimore, Ore.

San Francisco, May 4.—The Presbytarian Ministerial Union of San Francisco today adopted a resolution calling on the churches throughout the country to join in a concerted protest against the Jeffries-Johnson fight. The protest will be laid before the General Assembly in New York this month.

SAME OLD DOPE, BUT FANS WANT MORE

Los Angeles, May 4.—A pugilistic training camp resembles the works of Providence in one respect, least, which is, that it is fearfully and wonderfully made. There is more human nature up there than there is in April.

Now the least interesting thing about it is the crowd that comes to rubber. Made up entirely of regular followers of the ring game, you say? Not in the least. The pugilist in training is a magnet for all varieties of eyes, from the straight to the double-cross.

Jeffries, "the greatest fighter of all time," recently starting in training at Rowdenham, "low on the Western coast," now affords an opportunity to prove this statement. Already hath the busy sport chroniclers related that Jeffries' comparatively easy opening stunts had been watched by numbers of fashionably dressed women who "ohed" and "ahed" over the proportions of the giant athlete who will meet Jack Johnson in the ring at Fresno on July 4.

The fact is reminiscent of the Burns-Johnson fight pictures. It will be re-

CAMERON TO RUN AT OTTAWA MEET

Winner of the Boston Marathon to be a Starter in Victoria Day Sports.

Ottawa, May 4.—Fred Cameron, the blue nose who recently created such a sensation by winning the Boston Marathon will compete in the ten mile event on Empire Day sports, according to advices received last night by Secretary Washington. The lower porcupine man is anxious to add laurels to his collection, and will compete against men who will undoubtedly give him a close run for his money.

Jim Jeffries' camp was unusually quiet today. Aside from a boxing bout between Billy Papke and Bob Armstrong, visitors saw nothing. Early in the morning Jeffries started up stream with Jack Woolley on a fishing expedition which lasted all day. His back was reported to be much better, but to this affliction is attributed his failure to appear in the gymnasium.

While Jeffries is missing many an opportunity to get into shape, his exercise in which he indulges but little—his siliment is also keeping him from the heavy work that has so worried his trainers late he overdo it. He covered stretches ten miles while fishing up and down stream. On his return to camp Jeffries declared tomorrow will see him back at the usual routine work.

Manager Berger plans to leave Sunday night to return in San Francisco until the referee for the contest is chosen, which, according to the notice of agreement, must be done by next Wednesday. The referee question, however, has not yet been taken up by Jeffries and his managers.

Most of Jeff's future training bouts will be conducted behind closed doors according to a report now in circulation. Judging from a remark dropped by Manager Berger there is reason to believe Jeffries desires to exclude spectators from the gymnasium while he is boxing.

Jeffries said Jeffries has often complained of the distracting influence exerted on his mind by the other pugilists' salutes and comment among him. Because of this and to develop new fighting tactics which both Jeffries and his trainers are anxious to keep under cover, it is said that secret boxing hereafter will be a part of the big fellow's training programme.

Pittsburg Leader: Gibson bids off to enjoy his premier season in major league ball this year, and if he continues the pace he showed in the St. Louis series will be rated the premier receiver, even if Kling is back with the Cubs. Hawk made Cardinal runners who attempted to steal look foolish, and the Cards' runner found the second sack easily. He did great aid from Wagner, who is a marvel at putting the ball on a runner. Gibson is also hitting a fine lead.

runners who attempted to steal look foolish, and the Cards' runner found the second sack easily. He did great aid from Wagner, who is a marvel at putting the ball on a runner. Gibson is also hitting a fine lead.

Joe Tinker, shortstop of the Chicago Cubs, handled out a new Jackie Beasley story which may give some light on why the veteran didn't keep his job as baseball manager.

Tinker's story runs like this. One day last summer, with a runner on first Carlisle, was at bat. Before going to the plate he asked Beasley what to do.

"Go out," said Jackie.

"Do what?" replied Carlisle.

"You heard me, go out," was Beasley's second command.

Carlisle looked at Beasley a minute and walked to the plate to decide for himself whether to hit it out or lay it down.

Beasley turned to the rest of the players on the bench after Carlisle was sent up for a running distance, and said:

"That let me out, didn't it? It's up to Carlisle now."

Jack Johnson at a banquet tendered him at Omaha by negroes, discussed his coming fight with Jeffries. He is quiet and dignified.

"Our fight with Burns I can truthfully say I never before entered the ring with a heart so full of malice. Mr. Burns had said many unkind things about me and in the ring that day I remembered them all. Every time I forced him to his corner I would ask if he remembered when he had made some certain statement, and I followed it up with one of my best blows.

"Mr. Jeffries, too, has said many harsh things about me in return for the courtesy that I have always tried to show him. But I shall remember them all an the day of the battle. I shall ask Mr. Jeffries in the ring if he recollects certain of the things he has said, and for each recollection he shall make atonement."

Jeff has gone a-fishing—so has his press agent.

Consequently there are no tall tales from the fight camp today. But wait till those chaps get back from the fishing.

The fans are to meet at catch weights and have selected Jack Weleb as referee.

JIM JEFF. GOES OFF A-FISHING

Takes Day off From Hard Work and Goes up Stream on Fishing Day's Trip.

Rowerman, Cal., May 3.—Jim Jeffries' camp was unusually quiet today. Aside from a boxing bout between Billy Papke and Bob Armstrong, visitors saw nothing. Early in the morning Jeffries started up stream with Jack Woolley on a fishing expedition which lasted all day. His back was reported to be much better, but to this affliction is attributed his failure to appear in the gymnasium.

While Jeffries is missing many an opportunity to get into shape, his exercise in which he indulges but little—his siliment is also keeping him from the heavy work that has so worried his trainers late he overdo it. He covered stretches ten miles while fishing up and down stream. On his return to camp Jeffries declared tomorrow will see him back at the usual routine work.

Manager Berger plans to leave Sunday night to return in San Francisco until the referee for the contest is chosen, which, according to the notice of agreement, must be done by next Wednesday. The referee question, however, has not yet been taken up by Jeffries and his managers.

Most of Jeff's future training bouts will be conducted behind closed doors according to a report now in circulation. Judging from a remark dropped by Manager Berger there is reason to believe Jeffries desires to exclude spectators from the gymnasium while he is boxing.

Jeffries said Jeffries has often complained of the distracting influence exerted on his mind by the other pugilists' salutes and comment among him. WILL FOLLOW OUR EXAMPLE

Australia will Advertise in Order to
Attract Settlers.

EXCURSIONS FOR LAND SEEKERS

Parties of Farmers to be Brought From
Scotland to Make Tour of the
Island.

Melbourne, May 4.—Australia is about to embark upon a great scheme of national advertising in Great Britain, the Continent and America. The object of the promoters is the attracting to her shores such streams of emigrants as the English and American politicians as shall absorb nearly 1,000,000 acres of her virgin lands, and 100,000 acres of her cleared and irrigated settlement districts.

Their proposed scheme of government embarks upon organization on a large scale of "Land Seekers' Excursions," somewhat similar in character to those conducted by the Dominion of Canada Agency, and by the Canadian Australia, by a party of representative Scottish farmers who are expected to spend six months in the country.

There are other plans involving the providing of Australian guide-books, the dissemination from the High Commissioner's Press Bureau in London of weekly newsletters which shall inform the world concerning the opening up of Australia and the lands available in the different states.

In some of the irrigation districts of Northern Victoria an agriculturist will be able to obtain 40-acre blocks of land for \$100, and every little land help, he will be given a payment net from \$1,500 to \$2,500 a year clear profit.

This income is realized from orchards and lucerne, tomatoes, maize and other crops.

In other states, particularly in New South Wales and Queensland, the preparations to absorb the coming tide of newcomers are on even a vaster scale than in Victoria.

Calgary Wants University

Calgary, May 4.—At a meeting of the council of the board of trade held Monday afternoon a resolution was put through which will come before the board at its regular monthly meeting, asking the city of Calgary for a grant of \$150,000, the province of Alberta for \$150,000, and the Dominion government for a grant of land, for the Calgary university.

MUSICAL FESTIVAL OPENS

First Contests were for Bands and Male Choruses.

In the Thistle Rink last night the third Alberta Musical Festival began with band and male chorus competitions. Public interest in the festivals seems to have increased to a large extent as judged by the attendance which was nearly triple that of last year. The judges, Messrs. Thomas and Matthews, arrived yesterday at the King Edward, and the Raymond Hotel, accompanied by many friends, have also registered.

All Saint and Jackson Hamby's choruses were the two competitors in the male chorus competition, which was won by Mr. Hamby for the third time.

The competitors in the band competition were the Edmonton Citizens Band and Raymond's Military, the former winning easily. The band of Capt. Henry Watts, though not entered for the competition, played some delightful selections and were highly complimented by the judges. The Citizens Band which played a march, "The Ambulator" (Clement); waltz "The Wedding of the Winds" (Hall); overture Semiramis (Rossini); rendered the overture in a really excellent manner, although there seemed to be a solo player amongst their number.

The Raymond Band, which numbered twenty-six, made a very favorable impression last night, and as they have only been practicing for the festival for three weeks. Some splendid work is expected of them later on.

The competitions continue today and tomorrow, finishing with a grand concert on Thursday.

Today's programme is:

In the All Saints school room—10 a. m., piano, junior; 11 to 12 a. m., violin open; 1:30 to 3:30 p. m., piano; open; 3:30 to 4:45, vocal, bass and baritones; 4:45 to 6 p. m., vocal and harmonicas.

In the Thistle Rink—8:15 to 9:15 p. m., choral, small choirs; 9:15 to 9:45 p. m., choral, large choirs; 9:45 p. m., vocal, sight reading.

WIDOW SUICIDES BESIDE COFFIN

Fulfilled a Compact Made When She
and Her Husband Were
Children

Pittsburg, May 4.—Standing beside the coffin of her husband, who died this morning, Mrs. Isabella Rogers this afternoon sent a bullet through her head and fell dead on the coffin. Thus a compact entered into by two school children years ago was fulfilled.

James M. Rogers was a plumber. He married Isabella Hunter a year ago. Soon after his marriage he developed cancer of the stomach, which today ended his life.

All Saint and Jackson Hamby's choruses were the two competitors in the male chorus competition, which was won by Mr. Hamby for the third time.

The competitors in the band competition were the Edmonton Citizens Band and Raymond's Military, the former winning easily.

The band of Capt. Henry Watts, though not entered for the competition, played some delightful selections and were highly complimented by the judges. The Citizens Band which played a march, "The Ambulator" (Clement); waltz "The Wedding of the Winds" (Hall); overture Semiramis (Rossini); rendered the overture in a really excellent manner, although there seemed to be a solo player amongst their number.

What Montreal Gets

Montreal, May 4.—The net rate secured by the city for its million-dollar sterling loan, passed by the council yesterday, is \$100 per \$100, after deducting all charges. The net premium is \$96.66.

Cobalt Mines Merger

New York, May 2.—The project for a merger of all the principal silver mines in the Cobalt district of Canada, which has been simmering for more than a year, is said to be taking definite shape under the supervision of Samuel Ungerer, who was chiefly instrumental in bringing about the merger of the Boston Consolidated Copper & Gold Mining Company with the Utah Copper Company.

What Was It Clare Cup?

A number of men saw Hallie's comet last Saturday morning as they were returning from the Masonic ball. They report that the eastern sky was lurid for thirty seconds and that the sun was slightly tilted, thus delaying its rising for some minutes. The young man gazed until the passengers arrived at eight o'clock—Coleman Miner.

The Editor's Nose

The editor's nose has been giving him considerable bother during the past week. No, we were not preoccupied in the problem of meddling in other people's business although it might have appeared that such was the case to those who happened to see the rich, red blood flowing so freely.

It was simply a case of a ruptured blood vessel and the ruptured artery worked overtime as there were eight hemorrhages on Saturday and Sunday with a total loss of blood of about an imperial quart. Dr. Blackburn finally stopped the trouble and administered salt solution to create artificial blood.

The nose is now in good shape and poking around as usual for good news.—Burden Tribune.

His Last Moments

Nurses in hospitals are rather apt to lay too much stress on the advantages received by the patients and their duty of thankfulness; but still it is the poor soldier who suffers most from always having his cause to be gratified in his last breath.

With the following dying words, Captain: "Poor Hopkins is dead. I should have liked to speak to him once again and soothe his last moments. Why didn't you call me?"

Hospital Orderly: "I didn't think you ought to be disturbed or 'Ophkins, sir,' so I just soothed him as best I could myself."

Chaplain: "Why, what did you say to him?"

Orderly: "'Ophkins,' says J., 'you're mortal lad.'

"I am," says C.

"Ophkins," says J.: "I don't think you can 'ope to go to 'aven."

"I don't think I can," says C.

"Well, then, 'Ophkins,' says J.

"Yes, says C."

"Ophkins," says J., "you ought to be very grateful as there's a place pre-

pared for you and that you've got somewhere to go." And I think I heard, sir, and then 'e died.—San Fran-

cisco Chronicle.

Trouble in Honolulu

Honolulu, May 4.—Because of the arrest of four of their countrymen on the charge of inciting disorders, 500 Russians surrounded the police station and demanded the release of the prisoners. This denied, they endeavored to break down the heavy barred doors, raising stones and children as shields in front of them.

The police called out the fire department and streams of water were turned on the rioters, the police simultaneously charging with their clubs.

This treatment dispersed the rioters.

Warned Him

The other night, according to the story, Finley Peter Dunne wanted a taxicab at the club. He told John, who superintended the outside of the building, for his needs. "The cab came. John thrust his trunk and then stood at attention in the door. He had expected Armitage to condemn the place in bitter language, but the proprietor of the abandoned hunting preserve was so excellent spirits and talked blithely as he drew out of the keys."

"This place was built by fools," declared Oscar gloomily.

"Undoubtedly! There is a saying that foolish build houses and wise men live in them. You see, it is not I who have won Oscar. It is the sheepish."

He tried the shower and changed his garment, while Oscar prepared coffee and laid a cloth on the low table before the fire. When Armitage appeared coffee steamed from the cups and the room was filled with smoke. Dishes, eggs and toast were thrifly offered.

"You have done excellently well, Oscar. Get your own breakfast!" Armitage dropped a lump of sugar into his coffee cup and surveyed the room.

"I have not made a cent since I left the city. I have been honest."

"But this is not so bad, Oscar, and some day you shall go back!"

"Here," said the soldier, as they swung out of the wood and into the clearing, "is what they call the Port of Missing Men."

There was a broad, arched area, that tended downward almost imperceptibly to a deep dell. The dimmed and walked to the edge and looked down. "It is a fine place," he said. A little creek flowed out of the wood and emptied itself with a shrill rush into the vale, caught its breath below and became a creek again. A slight suspension bridge had across the stream, but it was now too dilapidated.

"Edgar, or rather, and was named 'No Thoroughfare,'" Armitage stepped upon the loose planking and felt the ground give way under his weight.

"It is a fine place," he said, as the bridge creased and swayed, and Armitage hopped and jumped back to solid ground.

The surface of this harbor of the hills was rough with outcropping rock. In some cases stress of nature had left ledges of rock, and in others only a scant growth of weeds and wild flowers remained. The place suggested a battleground for the wilds, where they might meet and struggle in wild combat, or, more likely, for the evolutions of a squadron of cavalry.

"Why name?" asked Armitage.

"They were gray soldiers of many battles—yes—who fought the long fight against the blue soldiers, and were beaten, but some of them would not surrender—but; they marched here and stayed a long time and kept their lastだ and so the place was called the Port of Missing Men. They built that stone wall over there, but we have never seen any of them again."

"The fortification is still there, and their graves are there by the cedars. Yes, they had brave hearts, and one of them even lifted his hat as though he were saluting the lone legion."

They turned again to the road, and went forward at a gallop, until half a mile from the gate, they came upon a clearing in a low, red roofed bungalow.

"Your house, sir," and Oscar swung himself down at the steps of a broad veranda. He led him up the steps and into the house, while Armitage surveyed the landscape. The bungalow stood on a rough knoll and was so placed to afford a splendid view of a wide region. Armitage traversed the long veranda, looking out over the hills, lighting in the far stretching pine covered barrens of hills. He was aroused by Oscar, who appeared carrying the suit cases.

"There shall be breakfast," said the man.

He threw open the doors, and they entered a wide, bare hall, with a fireplace, into which Oscar dropped a match.

"All one floor—plenty of sleeping rooms, sir—a place to eat here—a kitchen, a dining room, a parlor, a room for a common soldier; that is all."

"It is enough. Throw these bags into the nearest bedroom, if there is no choice, and camp will be established."

THE PORT OF MISSING MEN

COPYRIGHT, 1909, BY THE BOBBS-MERRILL COMPANY

SENATE WAS FOR PEOPLE

Its Amendments Strengthen the Anti-Combine Bill.

BELCOURT'S BILL WAS LEFT OVER

Its Mover Says That He Wants to Consider it More Carefully.

Ottawa, Ont., May 4.—The Senate passed the anti-combines bill yesterday.

The bill, in its present form, was passed by the House of Commons, in its passing clauses, 22 and 23, however, "to restrain and prohibit the corporation to restrain or injure trade or commerce."

The Senate has amended these sections by striking out the word "injurious" where it occurs in the committee report.

Oscar instructed the trunks and then stood at attention in the door. He had expected Armitage to condemn the place in bitter language, but the proprietor of the abandoned hunting preserve was so excellent spirits and talked blithely as he drew out of the keys.

About Town

Mr. Ramsey, the president of the Edmonton Horticultural Society, has called a meeting to be held in the Board of Trade room at 8 o'clock tonight.

Corporal T. C. Davies of the R. N. W. M. Police left yesterday for Winnipeg to bring back A. H. Olden, who is wanted in Strathcona to answer to a charge of theft.

The following players are requested to turn out tonight for jazz in their game against North Edmonton. They will meet at the Y. M. C. A. at 6:15: Milner, Ballou, Ferrier, Rayner, Mid-dlesborough, Battie, Gilmar, Walker, Allam and Peters.

The Mayor announced this morning that as soon as public works commissioner reaches the city he will assume office. In writing to the Mayor, Mr. Bouillon states that he expects to be in Edmonton by the tenth, that is next Tuesday.

Mr. F. C. Rows, who has come to Edmonton with the intention of starting a real estate business, has presented a silver medal to be used as a prize in the coming Edmonton exhibition, for the best thoroughly stained of my age.

The Municipal Improvement League of Edmonton will hold their regular meeting in Mitchell and Reed's Hall, Jasper Avenue East, on Friday evening, May 6th, at 8 p.m. As important business will be up for discussion, a large attendance is requested.

"Farming, Ranching and Social Conditions in Western Canada," is the title of a well printed booklet issued by the Grand Trunk Pacific Railway. It contains a series of articles written by practical men on subjects of interest to intending settlers.

The Mayor received a letter from Mr. Maston of Minneapolis, Minnesota, inquiring asking for information as to the whereabouts of his brother. The letter states that Mr. Maston has been in Alberta or British Columbia for some two or three years, and that the last heard of him was that he was in one of the Edmonton hospitals in May or June of 1907.

Wesley Methodist League (Fourteenth street), held its annual election of officers last night, with the following results: Hon. president, Rev. Jas. Coulter; president, Mr. Harry Miller; first vice-president, Miss B. Matthews; second vice-president, W. T. Matthews; third vice-president, Miss E. B. Ching; fourth vice-president, Miss M. Entwistle; recording secretary, Mr. J. W. Callister; treasurer, Mr. Hutchinson; organist, Miss Molly Wright. Mr. Harry Miller, who has been in England since December, is expected back with his bride within a week's time.

Marriage licenses issued. Jackson Bros., jewellers.

Good Bye, Tom. A pleasant drive behind one of Horner's literary outfit is sure to do you good. Phone 1242 when you need one.

Clothes Come From

THE DAY IN STRATHCONA

Budget of News from the City on the South Bank of the River

Strathcona Council.

Members present, Mayor Duggan, Alderman Calder, Bush, Congdon, Pollard, Donnan, Lendrum.

The regular order of business was suspended in order to hear deputations.

Mr. Clarke of the Edmonton Lamp Company was present in person to represent the extension of the water mains to the vicinity of the water tank. He pointed out the great danger in which his property stood on account of insufficient fire protection.

Moved by Ald. Calder, seconded by Ald. Donnan, that the matter be referred to the water and sewer committee.

Mrs. N. D. Mills then presented the council on behalf of a delegation representing the citizens of the two blocks south of Whyte avenue. On behalf of the property owners along those blocks he requested that the two blocks in question should be paved during the year. He asked that the question be opened up for consideration until a petition should be presented. The Mayor assured the delegation that when the matter was brought up before the council it would be undertaken. The delegation was given an extension of one week to request their petition.

J. Daley requested water extension on First avenue south from Main street to the station. The council decided to accept a petition from the ratepayers along that street should they request it.

An invitation to the Mayor and council was extended to be present at the musical festival held in Edmonton.

Petition from Short, Cross and Biggar, on behalf of H. H. Horsler, requesting sewer connection from his plant to the river.

Accounts to the amount of \$100.04 were ordered paid.

The report of the sewer and water committee was that over \$2,000 arrears had been collected during the last six months. Action against those in arrears in water payment was deferred for one week.

Ald. Calder brought in a resolution to empower the secretary-treasurer to collect all hospital accounts now due. Carried.

Petition from Short, Cross and Biggar, on behalf of H. H. Horsler, requesting sewer connection from his plant to the river.

Accounts to the amount of \$100.04 were ordered paid.

The report of the sewer and water committee was that over \$2,000 arrears had been collected during the last six months. Action against those in arrears in water payment was deferred for one week.

The case of Erasmus vs. Kelsey and Tiford, was heard before Chief Justice Sifton in the Supreme Court this morning, when judgment to the extent of \$120 was awarded to the plaintiff. Erasmus made an agreement with Kelsey to raft down and sell to him, fifty cords of lumber, from Pine Creek to Battleford. On the way in the river was high, and on the way down 6000 feet of lumber was lost, but the rest was safely delivered. The plaintiff then sent in his bill for \$27, less \$20, the price of the lost lumber, which defendant declined to pay. Plaintiff claimed \$624 and costs and was awarded \$429.

Postoffice Opening

Postmaster may announced this morning that it is expected that the new postoffice will be ready for use sometime in June. He intimated that it was not a false alarm this time, and that the new building will be ready for the public inside of six weeks.

Football Practice

The Callics A. and B. teams are requested to attend practice on the Exhibition grounds, when called on. The committee wish to bring to the players notice that it is imperative that they turn out, otherwise their places will be filled.

Fire at Port Hope

Port Hope, Ont., May 4—A fire broke out yesterday morning in the Deyel block, practically destroying one of the most prominent business corners in the town, the loss totalling \$75,000.

LAW MAKING IS FINISHED

Dominion Parliament to be Prorogued This Afternoon.

THE HUDSON BAY RAILWAY ROUTE

Hon. George P. Graham Says he Thinks Port Nelson is the Better Terminal.

Ottawa, May 4.—At eleven o'clock last night the House of Commons' order paper was cleared, and all that remained to be done at the last business sitting is to concur in the estimates voted and pass the supply bills. A variety of Government legislation was put through yesterday and the remaining estimates voted. A little difficulty has arisen between the Senate and the Commons because of the refusal of the upper house to yield when the Committee on Finance, to which the bill was referred, recommended a tri-weekly service between Calgary and Strathcona on Monday, Wednesday and Friday at one o'clock in the morning, arriving at Calgary at 8:10. At Calgary the time of departure is 24:55, the train arriving at Strathcona at 8:15. The new service goes into effect on June 6th.

New C.P.R. Service.

R. G. McNeilly, lately appointed District Passenger Agent for the C.P.R. with headquarters at Calgary, has been transferred to Mr. McNeilly announces that arrangements have been completed for the tri-weekly night service between Calgary and Strathcona on Monday, Wednesday and Friday at one o'clock in the morning, arriving at Calgary at 8:10. At Calgary the time of departure is 24:55, the train arriving at Strathcona at 8:15. The new service goes into effect on June 6th.

Eucharistic Congress

Montreal, May 4.—Among the many clergymen who will read papers at the English-speaking section of the Eucharistic Congress here in September, will be included the following Canadian clerics: Rev. H. Canning, Toronto; Very Rev. Deas Hand, Toronto; Rev. P. J. Hartigan, Deseronto, and Very Rev. A. Thompson, Glace Bay, N.S.

The list today shows that 69 archbishops and bishops have accepted invitations, and this list will probably be further augmented. It will be the greatest gathering of ecclesiastics ever witnessed in America.

Last Chance!

Carleton Place, May 4.—Carleton Place babies enjoy the distinction of having received from the Governor-General, Earl Grey, a "loving cup."

The circumstances are interesting. The little fellow was born in the Rosamond McFarland Hospital at Almonte last hour or so before the official opening by His Excellency some months ago. Earl Grey congratulated the mother and commemorated the occasion by sending a handsome souvenir.

Store to eCome Hotel

Montreal, May 4.—The old Carsley store block on St. James and Notre Dame streets will be made into a hotel patterned after the Hotel Statler, in Buffalo. A local syndicate is behind the scheme. There will be 140 bedrooms; \$200 a week will be spent. It will be called the Royal Edward.

Redmond to Visit America

Boston, Mass., May 4.—The biannual convention of the United Irish Legion will be held in Buffalo during the last week of next September, according to the decision made today by the national officers. It is expected that John E. Redmond, M.P., will attend the convention, with his colleagues, P. T. O'Connor and Jos. Devlin. The convention will begin on September 26 and continue until the 28th.

"A Knight for a Day"

The Boston Globe is not careless in acceding to practical theatrical productions. A recent issue, commenting upon the sensationally successful run at the Tremont of "A Knight for a Day," remarked:

"The laughter characteristic of an audience under the spell of 'A Knight for a Day' was a natural feature of last evening's audience at the Tremont. The gaiety is now in its third month locally. So far, interest in the engagement shows no signs of lagging. Certainly the night's audience, though it approached capacity, was not equal to the day's, as has any crowd since the troupe came to town. Tilly Day hadn't struck the stage before the mirth loosened and the merriment didn't abate until the final curtain had rung down on the bogus knight's funny burlesque with the falling star ballet-finish. The bolts of laughter, which certainly had a comic scenes review, struck the audience hard last evening, its humor and its sentiment; its persiflage and its buffoonery, its songs and its pageantry, diverted and interested a typical city audience. The play is now in its glory, and as provocative of mirth and general entertainment as ever. Now it has started 'on the road,' and the piece will be seen here at the Empire Theatre tomorrow."
